

LASTING LIGHTNESS SINCE 1990 / IMAGE BOOK 2020

MODO

ARTIPELAG

Artipelag is the setting for our latest image book. Set in Stockholm's archipelago, this art gallery brings together architecture and varying structures. Its clean lines and combination of modern design and contrasting textures capture the essence of the **MODO** brand.

CONTENTS

06 – 07	The story of MODO
08 – 13	Paper-Thin
14 – 19	Paper-Thin Acetate
20 – 23	Paper-Thin Rimless
24 – 29	R 1000 + Titanium
30 – 33	Metal Core Acetate
34 – 37	Block Titanium
38 – 43	Super-Thin Acetate
44 – 61	Sun

Lasting lightness since 1990

Thirty years ago, **MODO** was founded in New York City. From the beginning, we offered eyewear that delivered on lightness and lasting quality. Our designs have always reflected the world around us — in architectural precision as well as contrasts and the balance of strength, structure, and light.

Then and now, New York's dynamic spirit, our Italian design heritage, and Scandinavian minimalism were our touchstones. Design with a purpose has also guided us. Our **Buy a Frame — Help a Child See** pledge has provided comprehensive eye care to over one million children in need through our partnership with **Seva Foundation**.

Paper-Thin

Our Paper-Thin collection uses innovative, ultra-thin Beta-titanium and TR90 polyamide rims for the lightest optical frames in the world. Each frame's slim silhouette and minimal construction combine design and function for beautiful results.
